ABOUT US

Value Supply Group is a building-materials import distributor and sourcing partner serving retailers, wholesalers, and distributors across the United States. We specialize in delivering dependable, cost-effective product through direct mill relationships and container-direct programs.

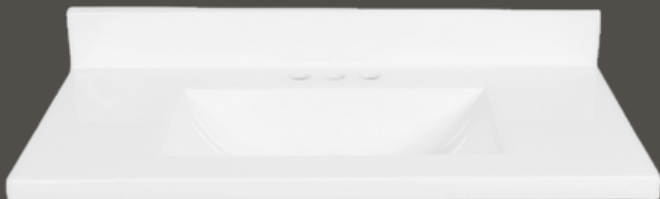

Our role goes beyond importing. We help customers solve real supply problems; from inconsistent availability and rising costs to excess inventory and promotional buying opportunities.

Value Supply Group was built by operators who understand inventory risk, freight complexity, and margin pressure. Every program we offer is designed to be practical, scalable, and aligned with how building material businesses actually operate.
